## THE FIRST IRON TO THINK AND ACT ON YOUR BEHALF

### YOUR IRONING COACH IN AN ANNIVERSARY EDITION WITH A SIMPLE AND ELEGANT MATTE GOLD FINISH

Thanks to Bluetooth technology, your ironing system connects to the mobile app to become a coach that will beautify your clothes.

#### UNIVERSAL COVER

Unique anniversary design version.

Can be adjusted to fit most ironing boards thanks to its practical clip fastening.

Its thickness allows a real comfort of ironing.

Machine washable at 30°C without spin drying.

#### PROTECTIVE COVER

Protects from dust and dirt.

Adapted to all Laurastar ironing systems.

Easily fits over the board thanks to its modern material and zip.

Machine washable at 40°C turned inside out.

## WHEN TECHNOLOGY MEANS SIMPLICITY

"Sensteam" technology captures the movements that you make with the iron and automatically activates the steam. There's no need to press a button; your movements alone are enough to trigger it.

Pulsed steam is diffused in a series of pulses. It is optimally dosed for perfect results whatever the colour or material of your clothes.

The 3D active soleplate straightens the fabric while the steam is perfectly distributed across its entire surface to effortlessly eliminate creases and refresh fibres deep down. Unrivalled ironing quality in a single movement! This technology is patented by Laurastar.

The four-speed vacuum and blower system inflates the board with air to straighten fabrics and prevent unwanted creases, or holds the clothes firmly on the board for flawless folds.

Laurastar's exclusive professional iron diffuses an ultra-fine and powerful steam that adapts to all fabrics and enables vertical steaming. Its rounded shape helps to prevent unwanted creases.

The thermostat's perfect temperature has been studied and programmed to give perfect results on all fabrics. There's no longer any need to adjust the temperature.

#### HYGIENIC STEAM

**KILLS 99.9%  
OF VIRUSES,  
BACTERIA AND DUST MITES**

Purifies textiles with Laurastar's unique steam, which eliminates viruses, mites and bacteria resistant to washes between 30° C and 40° C\*.

\* Results scientifically proven by independent laboratories
